PROFESSIONAL EXPERIENCE

Frontend Developer Intern — U Devs
Jan 2026 – Present
- Built responsive UI components using React and modern CSS.
- Implemented reusable components and improved UI consistency.
- Collaborated with designers and developers..

Automation & Workflow Developer (Projects)
Jul 2025 – Present
- Designed automation workflows using n8n with webhooks and conditional logic.
- Shared workflow insights and demos through LinkedIn, improving technical visibility.

ACADEMIC PROJECTS

InstaGuard – Fake Instagram Profile Detection System
Final Year Project (2024 – 2025)
- Built a machine learning–based system to detect fake Instagram profiles using Next.js, typescript, Flask, and MongoDB.
- Designed a responsive web interface with TailwindCSS, ensuring smooth user experience and admin functionality.
- Integrated real-time data extraction (Instaloader, Selenium, Playwright) and achieved high accuracy with Random Forest & XGBoost.

AI-Driven Lead Qualification Automation (n8n)
- Built an automation pipeline using webhooks, AI classification, and Google Sheets reduced manual work by ~70%.

Weather Forecast App with Animations
JavaScript, APIs
- Integrated real-time weather API with animated UI

Bakery Shop Web App
JavaScript, UI/UX
- Built an e-commerce style frontend with product listings.
